

PRISM™ PRF

Distributed By: Juventix

SIMPLE. EASY. 100% NATURAL PRF TUBES

FOR AESTHETICS & ORTHOPEDICS

PRISM PRF™ is simple and fast to prepare. All treatments are 100% autologous, which makes it safe and effective for a wide range of aesthetic, orthopedic, and cosmetic procedures. Our proprietary tubes are designed to maximize the concentration of platelets to deliver a sustained release of growth factors over 7–14 days.

PRISM PRF™ tubes are spun at a slower spin speed to efficiently extract platelet rich fibrin (PRF) and produce at least 5mL of PRF. This protocol is ideal for enhancing tissue healing, collagen production, and overall clinical outcomes your patients will trust and return for.

Experience the latest clinician-trusted & patient-approved PRF tubes that delivers purity & precision every time.

Treatment Zones

- ✓ Under-Eye
- ✓ Wound Healing
- ✓ Lips & Cheeks
- ✓ Crow's Feet
- ✓ Hair Growth
- ✓ Chin & Jawline

ADDITIVE FREE

Our tubes are 100% Natural and devoid of any anti-coagulant.
